

RED LIGHT THERAPY

Red light therapy is nontoxic, noninvasive, and considered safe for all skin types. It does not require the use of harsh topical substances or heat which can irritate or burn the skin.

Full-Body Light Therapy

Clinically-Proven Benefits

- Skin Health
- Muscle Recovery
- Body Contouring
- Mental Clarity
- Athletic Performance
- Joint Pain
- Sexual Performance
- Relaxation & Sleep

How Does it Work?

Red Light Therapy
Red light is primarily absorbed by your skin, leading to increased collagen production and optimal skin health.

Near Infrared Light Therapy
Near infrared light penetrates deeper within your body – enhancing muscle recovery and reducing joint pain.
